

RISHABH

Software Engineer

+91-9118358910 — rd1538350@gmail.com — linkedin.com/in/rishabh_dwivedi

Summary

Enthusiastic Software Engineer (Fresher) skilled in Python, Frontend, and Backend development. Proficient in HTML, CSS, JavaScript, React.js, and Python (Flask/Django) for web application design. Knowledgeable in MySQL, PostgreSQL, and MongoDB with hands-on experience in API integration and CRUD operations.

Skills

Programming & Development: Python, JavaScript (ES6+), HTML5, CSS3, C++, SQL

Frameworks & Tools: React.js, Flask, Django, Git, GitHub

Databases: MySQL, PostgreSQL, SQLite, MongoDB

Software Engineering Abilities: Frontend and Backend Development, RESTful API Design, Database Management, Debugging, Version Control

Experience

Software Engineer Intern

October 2025

Dataview Analytics (Remote)

Tools Used: Python, SQL, Power BI, Excel

- Built automated scripts in Python and SQL to clean and process datasets of over 1,00,000 records, improving data handling and accuracy.
- Developed and optimized Excel-based reporting systems integrated with Power BI dashboards, reducing manual reporting time by 40%.
- Created interactive Power BI dashboards to visualize performance metrics, KPIs, and business trends used across multiple departments.
- Collaborated with a cross-functional team of 4 analysts and 2 senior managers to validate key KPIs, improving strategic reporting and decision-making.

Certification

Deloitte – Data Analytics Job Simulation

October 2025

Certificate of Completion

- Completed practical tasks in Data Analysis and Forensic Technology, demonstrating analytical thinking, technical accuracy, and problem-solving skills.

Technical Skills

Programming: Python, SQL, C++

Tools & Technologies: Power BI, Excel, Git, VS Code Core

Competencies: Data Structures, Algorithms, Object-Oriented Programming, Debugging, Reporting Automation

Projects

Customer Churn Analysis & Flask Dashboard

August 2025

Python, Flask, HTML, CSS, JavaScript

- Built a Flask dashboard to analyze and visualize customer churn.
- Analyzed 7,043 customer records to identify key churn drivers.

Task Manager Web Application

2026

React.js, JavaScript, HTML, CSS

- Developed a responsive task management application to create, update, and delete tasks (CRUD operations).
- Implemented dynamic UI using React components and state management.
- Designed a clean and user-friendly interface for efficient task tracking.

Education

Dr. APJ Abdul Kalam Technical University, Lucknow

Graduation: Ongoing
