

RISHABH

Software Engineer

+91-9118358910 — rd1538350@gmail.com — linkedin.com/in/rishabh dwivedi

Summary

Software Engineer with hands-on experience in full-stack development using React.js, Python (Django/Flask), and REST APIs. Built and deployed projects handling 50,000+ records with a focus on performance and clean UI. Proficient in MySQL, PostgreSQL, MongoDB, and data visualization tools including Power BI and Matplotlib.

Skills

Programming & Development: Python, JavaScript, TypeScript, C++, Java, SQL, HTML, CSS

Frameworks & Tools: React.js, Django, Flask, Docker, Redux, Git, GitHub, Postman, Power BI, VS Code

Databases: MySQL, PostgreSQL, MongoDB

Competencies: Full-Stack Development, RESTful API Design, Data Structures, Algorithms, OOP, Debugging, Reporting Automation

Experience

Software Engineer Intern

August 2025 – November 2025

Deloitte Analytics (Remote)

Tools: Python, SQL, Power BI, Excel

- Automated Python/SQL data pipeline to clean and process 100,000+ records, improving data accuracy by 30% and reducing manual processing time significantly.
- Developed Excel reporting systems integrated with Power BI dashboards, cutting manual reporting time by 40% for a team of 5 analysts.
- Completed forensic data analysis tasks, applying structured problem-solving to identify data inconsistencies across large datasets.

Python Development Intern

January 2026 – April 2026

Codveda Technologies (Remote)

Tools: Python, Pandas, NumPy, Matplotlib

- Built Python scripts using Pandas and NumPy to clean, transform, and analyze 50,000+ records, improving data processing efficiency by 35% over manual methods.
- Designed Matplotlib visualization dashboards presenting 5+ key business insights, enabling faster and more informed decision-making for stakeholders.
- Automated repetitive data transformation workflows, reducing manual effort and standardizing output formats across multiple datasets.

Certification

Deloitte – Data Analytics Job Simulation

November 2025

Certificate of Completion

- Completed practical tasks in Data Analysis and Forensic Technology, demonstrating analytical thinking and problem-solving skills.

Projects

Task Manager App

March 2026

React.js, JavaScript, HTML, CSS

- Built a responsive task management app supporting CRUD operations with dynamic React components and state management.
- Designed a clean, user-friendly interface for efficient task tracking.

Student Management System

May 2026

React.js, JavaScript, HTML, CSS, Python, MongoDB

- Developed a full-stack responsive student management application to manage student records including name, age, email, course, grade, and branch using CRUD operations.
- Implemented dynamic frontend using React.js components and state management, integrated with a Python backend REST API for seamless data flow.
- Designed a clean and user-friendly interface connected to MongoDB for efficient storage and retrieval of student information and academic details.

SkyIndia Airport Experience

May 2026

React 19, TypeScript, Vite, Tailwind CSS v4, GSAP, Framer Motion, React Three Fiber, Recharts

- Developed a frontend-only airport platform with React 19 and TypeScript featuring 10+ pages including Flight Search, Tracker, Destinations, Terminal Guide, Dashboard, and AI Chat.
- Built one-way, round-trip, multi-city flight search with SVG world map, animated routes, radar simulation, and terminal shortest path navigation.
- Created analytics dashboard with Recharts (area, line, bar, pie, heat map), AI travel assistant, lounge virtual tour, and service booking comparison table.
- Designed immersive UI with glassmorphism, dark/light theme, GSAP, Framer Motion, React Three Fiber 3D, Lenis smooth scroll, and Radix UI components.

Education

Dr. APJ Abdul Kalam Technical University

Lucknow, Uttar Pradesh

B.Tech – Computer Science & Engineering

Expected: May 2028 | CGPA: 7.54
